Doble 22	YDH 8-80	CryoShipper IATA	SC 4/3V
Doble 28	YDH 8-90	CryoShipper CT-50	SC 20/12V
Doble 34	YDH 15-125	CryoShipper CT-250	XC 20/3V
Doble 47		CryoShipper 2000	CryoCube
Doble 47-10			Mini-Moover
ET-24-10-DOBLE			CryoMoover
			BL-7
			MVE 1536PD-150 Dry shipper

MVE Biological Solutions US LLC hereby declares that the above dry shipper (vapor shipper) products are not subject to IATA Dangerous Goods Regulations 60th Edition, Packaging Instruction 202 when used as a dry shipper. These products are exempt under 4.4 Special Provision, A152:

Insulated packaging's conforming to the requirements of Packing Instruction 202 containing refrigerated liquid nitrogen fully absorbed in a porous material are not subject to these Regulations provided the design of the insulated packaging would not allow the build-up of pressure within the container and would not permit the release of any refrigerated liquid nitrogen irrespective of the orientation of the insulated packaging and any outer packaging or overpack used is closed in a way that will not allow the build-up of pressure within that packaging or overpack.

Due to the manner in which liquid nitrogen is absorbed within these products there is no free liquid present in the packaging. The liquid nitrogen does not exhibit the characteristics of a "cryogenic liquid" as defined in 49 CFR 173.115 (g) and does not pose a hazard in transportation. Therefore, it is not subject to regulation under the Department of Transportation's Hazardous Materials Regulations.
